

Dear Teachers, Educators, and STEAM Enthusiasts,

We are pleased to invite you to the 2nd webinar of the **“AI2Schools” Erasmus+ project**, focusing on AI in STEAM Education to develop a critical understanding of AI and prepare learners on AI literacy.

This 2nd webinar focuses on the “AI Body Beats” project, which is one of the five AI projects developed as part of the AI2Schools project, aiming to familiarize educators and learners with the use of AI in schools education. Through the **“AI Body Beats”** project you will explore how a hands-on project can help students to develop **AI literacy through creativity and STEAM learning**.

During the webinar, you will be introduced on:

- How to use the micro:bit Create AI platform to train machine-learning models for gesture recognition.
- How to build an embodied musical instrument using the BBC Micro:Bit and Micro:bit Create AI Machine Learning command blocks.
- How AI concepts such as perception, representation, reasoning, and learning can be introduced in the classroom.

 **Date:** Wednesday, 17/12/2025

 **Time:** 17:00 – 18:00 CET

Participation is free but registration is mandatory!
